§ 1434.7

§1434.7 Approved storage.

(a) Loans will be made only on honey in approved storage, which shall consist of a storage structure located on or off the farm that is determined by CCC to be under the control of the producer and affords safe storage for honey pledged as collateral for a loan. If the honey located in a farm storage structure is pledged as collateral that secures more than one loan, the honey must be segregated so as to preserve the identity of the honey securing such loan. Honey securing a loan must also be segregated from any honey not pledged as collateral for a loan that is stored in the same structure.

(b) Producers may also obtain loans on honey packed in eligible containers and stored in facilities owned by third parties in which the honey of more than one person is stored if the honey that is to be pledged as collateral for a loan and that is stored identity preserved or is segregated from all other honey. Each container of the segregated quantity of honey shall be marked with the producer's name, loan number, and lot number so as to identify the honey from other honey stored in the structure.

§1434.8 Containers and drums.

(a)(1) The honey must be packed in plastic Intermediate Bulk Container (IBC) or metal containers of a capacity of not less than 5 gallons or greater than 70 gallons. The IBC container is a bulk container with a polyethylene inner bottle with a galvanized steel protective cage with a 275 and 330 gallon capacity and is reusable. The metal containers must meet the requirements of the Federal Food, Drug, and Cosmetic Act, as amended, and regulations issued thereunder and must be generally fit for the purpose for which they are to be used;

(2) The 5-gallon containers must hold approximately 60 pounds of honey, and must be new, clean, sound, uncased, and free from appreciable dents and rust. The handle of each container must be firm and strong enough to permit carrying the filled container. The cover and can opening must not be damaged in any way that will prevent a tight seal. Cans that are punctured or

have been punctured and resealed by soldering will not be acceptable; and

- (3) The steel drums must be an openend type and filled no closer than 2 inches from the top of the drums. Such drums must be new or must be used drums that have been reconditioned inside and outside. The steel drums must be clean, treated inside and outside to prevent rusting, fitted with gaskets that provide a tight seal and have an inside coating suitable for honey storage.
- (b) Honey shall not be eligible to be pledged as collateral for loans if such honey is stored in:
- (1) 55-gallon steel drums having a tare weight less than 38 pounds, 30-gallon steel drums having a tare weight less than 26 pounds, or drums having removable liners of polyethylene or other materials;
 - (2) Bung-type drums;
 - (3) Bulk tanks:
 - (4) Plastic buckets and containers;
- (5) Steel drums that are severely enough dented as to cause damage to their lining, improper seal, or stacking capabilities; and
- (6) Rusted drums with corroded areas.

§ 1434.9 Determination of quantity.

The amount of a marketing assistance loan and loan deficiency payment shall be based on 100 percent of the net weight in pounds of such quantity certified by the producer and verified by the county office representative for honey on Form CCC-633 (Honey) that is eligible to be pledged as security for the loan or LDP Estimates of the quantity of honey shall be made on the basis of 12 pounds for each gallon of rated capacity of the container.

§ 1434.10 Application, availability, disbursement, and maturity.

(a) A producer must, unless otherwise authorized by CCC, request loans and loan deficiency payments at the appropriate FSA county office responsible for administering the program as provided under part 718 of this title. To receive loans and loan deficiency payments for honey, a producer shall execute a note and security agreement or loan deficiency payment application on
